- In this session we'll explore how Various interventions in the region are breaking silos to deliver co-benefits for water, energy, and food security

Scene setting

Introducing speakers:

Group Discussions: Guiding questions

1. What are the major enablers or barriers to mainstreaming and implementing the WEFE nexus in regional policies and practices?
2. What success cases show the WEFE nexus approach can be effectively implemented with transboundary approaches and local level impact?
3. What leads to success for scaling WEFE nexus in planning and projects in the region?
