Sustainable Mobility: New Policy Approaches

Dr. Nancy Vandycke
Manager, SuM4All Program, World Bank
Why do we need a new approach for public decision-making in transport?
What is this new approach for public decision-making in transport?
Transport as a System

Connect all people, including women and communities to economic and social opportunities

Optimize the predictability, reliability and the cost effectiveness of mobility system

Drastically reduce fatalities, injuries and crashes

Minimize the environmental footprint of mobility (GHG emissions, noise and air pollution)
System subject to risks and threats
How can this approach benefit country and city decision-makers?
### Some components of the CAC

- Improve the quality and safety of public transportation
- Implement Anti-harassment Campaigns in Public Transport.
- Make Public Transport Fares Affordable for the Poor (as Applied to Both Public Transit and Privately Operated Taxi Fleets).
- Expand Public Transport Infrastructure.
- Set Design Standards for Sidewalks and Bicycle Paths (to Facilitate Adding Sidewalks and Paths as Standard Parts of Road Upgrades).
AN INNOVATIVE POLICY APPROACH FOR SUSTAINABLE MOBILITY
