

# The 6th Sustainable Development Goals Youth Summer Camps

16-19 August 2022

Yonsei University International Campus, Incheon, Korea

## Speakers Biography

**Mr. Chunkyoo Park**  
Head  
United Nations Office for  
Sustainable Development

Mr. Chun Kyoo Park is the Head of UN Office for Sustainable Development as of 26 October 2020. Before that, he has served at the government for almost 30 years mainly at the Ministry of Environment of the Republic of Korea where he joined in 1991 starting at mid-level management rising to the rank of the Vice Minister of Environment. Throughout the experience, he has built various capacities and broadened the scope of work by engaging in many different areas of sustainable development.

Mr. Park's works range from air and water quality management to nature conservation, waste management, chemicals management, sewerage system, etc. Tackling climate change has been his major concern and produced lots of achievements at the ministry including setting up Korean National Mitigation Targets.

Moreover, his career stretches to the international cooperation where he worked as the first secretary of the Republic of Korea Mission to the UN in charge of works related to the UN General Assembly 2nd Committee, and the Commission on Sustainable Development. He has attended various international meetings which include CBD COP13 in Cancun, Mexico as the chair of the COP12 Presidency and the most recently the 4th UN Environment Assembly in 2019 in his capacity as the head of Korean delegation. He worked closely with UN organizations to support program such as the UNEP's PAGE (Partnership for Action on Green Economy) and the first international workshop for developing country officials on MRV (Measurement, Reporting, and Verification) jointly with UNFCCC and/or EU.

He graduated from Yonsei University majoring Public Administration and holds a Master's degree in Development Policy and Public Administration at the University of Wisconsin at Madison. He is co-author of three books including "Carbon Market, Are You Ready to Buy or Sell It."

**Mr. Hyunsoo Cho**  
Director  
Green Transition Policy Division  
Ministry of Environment of Korea

Mr. Hyun Soo Cho is the Director of the Green Transition Policy Division in the Ministry of Environment of the Republic of Korea. He is responsible for directing the transition of Korea to a green society by building capacity of government and civil society in fulfilling the green development and implementing the SDGs in Korea.

He has worked for the Ministry of Environment for over 21 years and has been dedicated to developing Korea's environmental policy in various fields such as water supply and sewerage, resource circulation, environmental economy, and environmental health. He also has considerable expertise in greenhouse gas inventory through his work experience in GIR and contributed to organizing the World Conservation Congress in IUCN.

**Mr. Hyunsik Yoon**  
Director General  
Department of Global Cooperation,  
K-eco

Mr. Hyun Sik Yoon is the Director General of the Department of Global Cooperation in the Korea Environment Corporation (K-eco). He leads overseas business and international environment cooperation at K-eco.

Since 2000, he has contributed to public water and sewage policy, waste resource to energy and air quality management in K-eco. More recently, he mainly focuses on environmental Official Development Assistance(ODA) by proposing environmental business model to implement the Sustainable Development Goals(SDGs).

**Ms. Hyunkyung Lee,**  
Associate Professor  
Culture and Design Management  
Yonsei University

Prof Hyun-Kyung Lee is Associate Professor of Culture and Design Management at Yonsei University, South Korea. She has a Ph.D. in Arts Administration at Florida State University (FSU) from Tallahassee, Florida; M.A. in Museum Studies at Syracuse University, in Syracuse, New York; B.F.A. in Visual Communication Design at Hong-Ik University, in Seoul, Korea.

**Mr. Huiyong Kim**  
Administrative Assistant,  
United Nations Office for  
Sustainable Development

Mr. Huiyong Kim is the Administrative Assistant at the United Nations Office for Sustainable Development (UNOSD) and performs general administrative and operational functions of UNOSD including HR issues. He earned B.A in Global Affairs, with the concentration in Global Governance, from George Mason University. Prior to joining UNOSD, he was a Team assistant and an Individual Contractor at UNOSD and successfully completed the internships/assistantships at international organizations namely UNOSD, World Health Organization Collaborating Center, and Green Climate Fund. Currently, he studies Public Policy at Seoul National University Graduate School of Public Administration.

**Ms. Vivian Fu**  
Communication Officer,  
East Asian-Australian Flyway  
Partnership (EAAFP)

Ms. Vivian Fu is the Communication Officer of the East Asian-Australasian Flyway Partnership (EAAFP) Secretariat. She has a background in Ecology in her bachelor's degree and focused freshwater ecology for her Mphil studies. She later got a Master of Social Science at the University of Hong Kong. She has about eight years of experience in wildlife and bird conservation as the China Programme Officer, a joint programme between the Hong Kong Bird Watching Society and BirdLife International at the time. Vivian believes that CEPA (Communication/Capacity Building, Education, Participation, Awareness) is a essential for conservation and promoting sustainable development, as the results allow long-term conservation work to be more effective. Since she joined the EAAFP in 2018, she has been active in developing and initiating CEPA activities to different stakeholders, especially to young people. Vivian believe youth is an crucial player in developing a better future.

**Mr. Tae Kim**  
Strategist, Impact Strategy and  
Partnership Development, Enuma

Mr. Tae Young Kim is Impact Strategy and Partnerships Manager at Enuma, a mission-driven edtech company that designs exceptional early learning apps including Kitkit School, a grand-prize winner of the Global Learning XPRIZE (2019) and a winner of the 2020 UN STI innovation for SDGs competition.

Tae has managed projects and partnerships globally at Enuma since 2018. In the earlier years at Enuma, he focused extensively on Enuma's business development work in East Africa and handled stakeholder relations in Tanzania for the Global Learning XPRIZE. He also managed the Pop-up Learning project in Bangladesh with the International Rescue Committee, delivering tablet-based learning to the Rohingya refugee children, and supported the transition to online distribution of Kitkit School during the global pandemic. Tae currently leads the Sekolah Enuma project in Malaysia and supports partnership development globally.

**Ms. Soohwan Lee**  
DFK Researcher/Coach, UIC,  
Yonsei University

Ms. Soohwan Lee is a researcher/ coach at Design Factory Korea (DFK) of Underwood International College (UIC), Yonsei University. Ms. Lee mainly focuses on developing regular curriculum and extracurricular activities for students, and communicating with design factories overseas and Design Factory Global Network (DFGN). She holds a Bachelor's Degree in Political Science and International Relations, and in East Asian Studies at Korea University, and also holds a Master's Degree in International Area Studies at Seoul National University Graduate School of International Studies. Her research interests lie in the fields of political relations among East Asian countries and regional integration.

**Mr. Peter Chin Tse Nam,**  
Associate Social Affairs Officer,  
UNESCAP

Mr. Peter Chin Tse Nam is a Associate Social Affairs officer covering issues regarding, youth, ageing, entrepreneurship, innovation and technological impacts on societal issues with the United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP). He holds a MSc. in Global Innovation Management from the Technical University of Hamburg-Harburg and a BEng. in Materials Science and Engineering from Nanyang Technology University. His interests lie in Science and Technology as well as policies and politics.

**Ms. Jaeyun Ho,**  
Assistant Professor of  
Creative Technology Management  
Yonsei University

Prof Jae-Yun Ho is Assistant Professor of Creative Technology Management at Underwood International College of Yonsei University in Korea. She conducts research in the area of innovation management and policy, with particular interests in technology strategy and entrepreneurship. She obtained a PhD in Engineering and an MPhil in Technology Policy, both from University of Cambridge. She also has a mechanical engineering background and industrial experience in both technical and policy consulting.

**Mr. Wontae Kim**  
Manager, Aquatic Ecosystem  
Restoration Division, K-eco

Mr. Kim Wontae is a manager at the Korea Environment Corporation. He is in charge of river continuity restoration project which is to improve the health of aquatic ecosystems and fish migration by removing small dams.

**Mr. Keeheon Lee**  
Assistant Professor  
Department of Industrial  
Engineering  
Yonsei University

Prof Keeheon Lee is an assistant professor at Yonsei University. He obtained MS and PhD from Department of Industrial Engineering, Yonsei University. He also obtained BS from Department of Computer Science, Yonsei University.

**Mr. Youngchan Kim**  
CEO, Valkers

Mr. Youngchan Kim is the CEO of Valkers. He is currently researching educational programs which enable the application of 3D printers in various fields, and is providing prototyping lectures and advisory activities for early startup product development. Also, he is developing products combining leather crafts and interior accessories with 3D printers.

He worked as an examiner for the certificate of 3D printer operation, a national certificate issued by the Human Resources Development Service of Korea. He has a bachelor's degree in mechanical design engineering from Tech University of Korea.

**Ms. Soojin Jun**  
Professor/Vice Dean,  
Yonsei University

Ms. Soojin Jun is an Associate Professor and Vice Dean at the Graduate School of Communication and Arts, and an affiliate professor at Information and Interaction Design Major, HASS(Humanities, Arts, and Social Sciences), Underwood International College, Yonsei University, Seoul, Korea. Prior to joining Yonsei University, she taught courses at School of Design, Carnegie Mellon University and conducted several interdisciplinary research projects with the United States Postal Service, the CMU Human-Computer Interaction Institute and Dental Informatics at the University of Pittsburgh. She has also worked for several organizations including MetaDesign, SiegelGale, MayaViz, and her design works have been cited and awarded at international design competitions. Her research has been published in leading journals, conferences, and currently the editor of Archives of Design Research. Her research interests lie in the fields of interaction design, user experience design, and information visualization. She holds a B.F.A in visual communication design at Seoul National University, Korea, and an M.Des. and a Ph.D. in interaction design at Carnegie Mellon University.

**Ms. Yunjin Lee**  
Manager, Internation Cooperation  
Division, K-eco

Ms. Yunjin Lee is a Manager of the International Cooperation Division. She is in charge of the Seoul Initiative Network Project. In 2022, the Pilot Project on the improvement of school hygiene and Introduction of Separate Discharge of Domestic Waste in Laso and the Feasibility study on the ICT-Based Waste Monitoring System in Kyrgyzstan are implemented by Seoul Initiative.

**Ms. Yujeong Kim**  
Senior Sustainable Development  
Officer, United Nations Office for  
Sustainable Development

Ms. Yujeong Kim is the Senior Development Management Expert at the United Nations Office for Sustainable Development (UNOSD). She contributes towards the capacity building of Member States for achievement of Sustainable Development Goals through organizing capacity building events, developing training material, undertaking policy research studies, and building partnerships with various organizations. Prior to joining the UNOSD, Ms. Kim worked as a Senior Specialist at the Ministry of Environment of the Republic of Korea, where she led policy design and implementation on air quality, environmental health, water and climate change. She also served for the President's Office and the Office for Government Policy Coordination to develop and promote green growth policies. Ms. Kim holds a Master of Public Affairs from Indiana University and a Bachelor of Science in Earth System Sciences from Seoul National University.

**Ms. Helen J.S. Kim**  
UIC Dean and DFK Director,  
Yonsei University

Ms. Helen J. S. Kim is a professor of modern Japanese literature and postcolonial studies. Her research has primarily focused on Japan's empire, with a particular focus on settler communities in colonial territories. She has published with positions: *asia critique* (2009 & 2013) and the *Journal of Japanese Literature and language* (2007, 2011, 2016 & 2019). She is also a co-editor of *Reading Colonial Japan: Text, Context, and Critique* (Stanford University Press, 2012). Her current project deals with children, both Japanese and non-Japanese, within Japan's empire, and their kokugo compositions. Since July 2021 she has been appointed as Dean of Underwood International College, Yonsei University.

**Ms. Chaela Shin**  
Associate Research and Policy  
Development Expert, United  
Nations Office for Sustainable  
Development

Ms. Chaela Shin is the Associate Research and Policy Development Expert at the United Nations Office for Sustainable Development (UNOSD). Ms. Shin mainly focuses on the development and implementation of the substantive work program in the area of SD-related Policy Research. She also liaisons with local partners especially K-eco(Korea Environment Corporation) to collaborate projects of SDGs on national level. Prior to joining UNOSD, Ms. Shin had work experiences at the public corporations in the field of energy policy research and K-SDGs implementation, including K-eco. Her major work field was offering public services to deal with wastes in Korea such as operating waste management system called "Allbaro" and evaluating over-packages according to the legal test.
