

2024 International Mayors Forum

Grand Hyatt, Jakarta, Indonesia

2-4 July 2024

Concept Note

I. Context

As the world continues to urbanize, the achievement of the 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs) demands a focus on accelerating progress in cities, towns and peri-urban areas. According to the United Nations, 55 per cent of the world's population resided in urban areas in 2018. By 2050, 68 per cent of the world's population is projected to be urban.¹

SDG localization is the process of transforming the SDGs into reality at the local level, in coherence with national development frameworks and in line with local communities' priorities. With 65% of SDG targets linked to the work and mandates of local and regional governments, localization is a pre-condition for their understanding, uptake, and achievement. In recent years, the role of local and regional governments has gained prominence and visibility at the international level, recognized by Member States in General Assembly resolutions and High-level Political Forum (HLPF) political declarations², and by the Secretary-General in his report on *Our Common Agenda* and on *Progress towards the Sustainable Development Goals: towards a rescue plan for people and planet.*³

Furthermore, in October 2023, the Secretary General launched his Advisory Group on Local and Regional Governments to advise and advance coordination and collaboration, among the constituency of local and regional governments and the United Nations system, towards coherent actions aligned to the 2030 Agenda for Sustainable Development and the New Urban Agenda.⁴

In the face of growing global uncertainty, localization has become more important than ever, reflecting the ability to translate global aspirations to concrete results at the local level. Drawing on the 2023 SDG Summit and its Political Declaration, localization was identified as one of the high impact initiatives that can drive SDG progress.

In 2023, the United Nations Sustainable Development Group identified <u>Six Key Transitions: Investment</u> <u>Pathways to Achieve the SDGs.</u> These transitions can have catalytic and multiplier effects across the SDGs to ensure transformative and accelerated progress. They include food systems; energy access and affordability; digital connectivity; education; jobs and social protection; and climate change, biodiversity loss and pollution. A new SDG localization benchmark has also been adopted into UN Sustainable Development Cooperation Frameworks to measure impact through the use of the SDG Fund.

Accelerating SDG localization through the six key transitions requires enhanced UN cooperation and coordination. Through the Local 2030 Coalition, the High Impact Initiative on localization to push the achievement of the transitions at the local level, there is an opportunity to enable connections between the UN and diverse stakeholders with the shared objective of localizing SDGs. By providing a bridge for sharing knowledge, expertise, innovations, tools and investments, Local2030 empowers and

⁴ Secretary-General's remarks to launch the Advisory Group on Local and Regional Governments, 6 October 2023, available at: Secretary-General's remarks to launch the Advisory Group on Local and Regional Governments | United Nations Secretary-General The work of the Advisory Group, launched on 6 October 2023, will also address: modalities and means to enhance institutional mechanisms to strengthen engagement of local and regional governments in intergovernments, and the UN Country Teams; and recommendations on a UN global strategy for the engagement of local and regional governments, including institutional mechanisms,

intergovernmental processes, and partnership arrangements, to strengthen contributions to the implementation of the 2030 Agenda and the New Urban Agenda.

Department of Economic and

strengthens local and subnational governments and actors by providing advisory and technical support to accelerate progress toward the SDGs.

UCLG

The SDGs cannot be achieved without scaled-up and sustained investments in urban infrastructure and services, such as quality and affordable housing, access to quality education, sustainable public transport systems, health care services and sanitation, decent work and a safe environment, with a particular focus on the needs of the most vulnerable amid rising inequality. Investing into urban infrastructure has large multiplier effects across SDGs with infrastructure either directly or indirectly influencing the attainment of 92% of the 169 individual SDG targets.

Nearly 1.1 billion people live in slums or slum-like conditions in urban areas, with an additional 2 billion expected to live in slums or slum-like conditions over the next 30 years. The growing slum population is a manifestation of the housing and urban design crisis, which was exacerbated by the COVID-19 pandemic and the continued increase in rural to urban migration. Improved planning for these megatrends from national to local level is essential to accelerate global to local progress on sustainable development.

Cities also play a leading role in the economic development of countries and global prosperity, contributing as much as 80 per cent to the global gross domestic product (GDP).⁵ However, the current trend of urbanization is also often accompanied by significant social and environmental challenges, such as the lack of access to adequate, affordable urban housing options, urban infrastructure and basic services for a growing number of citizens, who have to contend with rising inequality and exclusion, unemployment, food insecurity and extreme poverty. This is particularly true in developing countries, where 95% of urban expansion will take place over the next decades.

Unsustainable patterns of consumption and production are concentrated in cities, which are also the main areas to address climate change and environmental degradation. Cities alone account for 60-80 per cent of global energy consumption and generate as much as 75 per cent of the energy-related greenhouse gas (GHG) emissions. Despite the closeness of local governments to the needs and realities of sustainable development, local authorities have too often limited financial and human resources at their disposal to fully achieve the SDGs.

With an estimated gap of some US\$ 4.2 trillion per year, the SDGs require a quantum leap in finance flows – from billions to trillions – ensuring that financing delivers results locally.⁶ The 2024 Financing for Sustainable Development Report highlights that urgent steps are needed to mobilise financing at scale to close the development financing gap, which increased by nearly two-fold after the COVID-19 pandemic. Some countries are making progress, aligning national budgets with SDG targets, translating them to city-level, and issuing SDG debt vehicles such as an SDG Bond to close financing gaps even at sub-national level.

Greater financial resources, capacity and innovation are required through strengthened national to local coordination and multi-level governance for the 2030 Agenda. The SDGs can only be achieved through the substantial involvement of local actors, hence the need for localizing the SDGs, where local governments and stakeholders play an essential role in accelerating SDG targets in communities.

П. Organizers

The 2024 International Mayors Forum is organized by the United Nations Department of Economic and Social Affairs, and the Government of the Republic of Indonesia, represented by the Special Region of Jakarta, in collaboration with the United Cities and Local Governments in Asia Pacific and the Local 2030 Coalition.

Department of Economic and

Rooted in the United Nations Charter and guided by the transformative 2030 Agenda for Sustainable Development, the UN Department of Economic and Social Affairs (UN DESA) upholds the development pillar of the United Nations. UN DESA brings the global community together to work towards common solutions to the world's most pressing problems. The Department also helps countries translate global commitments into national action in the economic, social and environmental spheres. Over the course of the past several years, DESA has supported the engagement of local government representatives at the HLPF. DESA also provides technical cooperation and support, including capacity development, to Member States at their invitation, working at national and regional levels with governments, civil society organizations, UN Resident Coordinators and UN Country Teams (UNCTs) and other key stakeholders to advance sustainable development and ensure that no one is left behind.

UCLG

Established in 2011, the United Nations Office for Sustainable Development (UNOSD) is part of the Division for Sustainable Development Goals (DSDG) of the United Nations Department of Economic and Social Affairs (UN DESA) providing capacity in support of the implementation and monitoring of the SDGs, especially on climate action, and environmental targets. Since 2017, UNOSD has been organizing the annual International Mayors Forum to strengthen SDG localization and increase knowledge and commitments towards advancing the SDGs through national to local leadership.

UN DESA is further supporting the annual International Mayors Forum through its United Nations Centre for Regional Development (UNCRD), which strives to promote sustainable regional development in developing countries, and the United Nations Project Office on Governance (UNPOG), which aims to strengthen the public governance capacities of developing countries.

The Special Region of Jakarta, the former capital of Indonesia, serves as the country's cultural, political, and financial centre. Demonstrating a strong commitment to achieving the 2030 Agenda, Jakarta adopted Governor Regulation 156/2018 on the Local Action Plan for Sustainable Development Goals for 2018-2022. This framework outlines specific targets and indicators tailored to Jakarta's context. Currently, Jakarta is formulating the Local Action Plan for SDGs 2023-2026, aligning with its Regional Development Plan of 2023-2026. The city is actively implementing various initiatives to address urban challenges and promote sustainable development, aligning with Indonesia's national SDG priorities, including poverty reduction, quality education, and climate action. Jakarta communicated its progress on the 2030 Agenda to the world with its first Voluntary Local Review (VLR) in 2021 and will launch its new VLR for 2024 at the International Mayors Forum. As the host and organiser of the International Mayors Forum 2024, Jakarta underscores its commitment to sustainable urban development, providing a platform for mayors worldwide to exchange best practices and collaborate on achieving the SDGs.

United Cities and Local Governments Asia Pacific (UCLG ASPAC) is the largest regional section of the United Cities and Local Governments (UCLG), headquartered in Jakarta, Indonesia, and hosted by the Government of Jakarta Special Region. UCLG is a global association representing local governments, officially recognised as the voice of local governments by the United Nations. UCLG ASPAC has connections to over 7,000 local governments, encompassing a population of more than 4.3 billion people, which is over half of the world's population. UCLG ASPAC serves as the primary knowledge hub for local government matters in the Asia-Pacific region. It promotes democratic local governance, fosters collaboration among cities, local governments, and their associations, and facilitates programs, networks, and partnerships to enhance the capabilities of local governments and their associations. UCLG ASPAC actively engages local governments in localising the SDGs. Since 2019, UCLG ASPAC has supported the development of Voluntary Local Reviews (VLRs) and Voluntary Subnational Reviews (VSRs) for several members. These efforts aim to strengthen local governments' capacity for SDGs reporting, enhancing the monitoring and reporting mechanisms for local governments and their associations.

The International Mayors Forum is also organized in coordination with the Local2030 Coalition, as a high impact initiative that aims to accelerate the six key SDG transitions through three action areas focused on advocacy, action and monitoring and reporting. The Local2030 Coalition enables connections across a diverse range of stakeholders - from local and subnational governments to the private sector other local actors - with the shared aim of localizing the SDGs.

Department of Economic and

Ш. Goal and Objectives

The broader goal of the International Mayors' Forum is to provide an annual platform for policy dialogue and knowledge sharing on key aspects related to the implementation of the 2030 Agenda and the SDGs. The Forum will also be an important opportunity for local, regional, and national governments to explore how they can contribute to the Summit of the Future in 2024 and the Fourth International Conference on Financing for Development in 2025 as important opportunities to, inter alia, accelerate the implementation of the 2030 Agenda and its SDGs. Building on the outcomes of the 2023 International Mayors Forum held in Senegal, the specific objective of the 2024 International Mayors Forum is to promote dialogue and share experiences on how to practically accelerate implementation of the 2030 Agenda through localization of the SDGs in the six remaining years.

UCLG

The Forum will focus on accelerating action at the local level on transformative entry points – or the Six Key Transitions: Investment Pathways to Achieve the SDGs - that can have catalytic and multiplier effects across the SDGs, as identified in the context of the 2023 SDG Summit to ensure transformative and accelerated progress.

In line with the 2024 High-level Political Forum, the International Mayors Forum will strive to support local and regional governments to share experiences, lessons learned and good practices, focusing on accelerated implementation of the 2030 Agenda for Sustainable Development at the local and regional levels. This will include presentations on local progress through Voluntary Local Reviews (VLRs), including the Jakarta Special Region's 2024 VLR, as well as that of other subnational governments presenting their VLRs.

IV. Target Audience

Mayors and officials from subnational government entities, as well as key ministerial representatives from developed and developing countries, - including least developed countries, landlocked developing countries, small island developing states and middle-income countries. Representatives of UN entities, Local 2030 Coalition and regional hubs, international experts and other stakeholders will also be invited to attend the Forum.

2024 International Mayors Forum

UCLG

Grand Hyatt, Jakarta, Indonesia

2-4 July 2024

Agenda

	Day 1 – 2 July 2024
Time	Session
8:30 - 8:55	Registration
9:00 – 10:15	Opening of the Forum
	Cultural performance
	Opening remarks
	 Mr. Navid Hanif, Assistant Secretary-General for Economic Development, United Nations Department of Economic and Social Affairs H.E. Mr. Tito Karnavian, Minister of Home Affairs, Indonesia, represented by Mr. Restuardy Daud, Director-General of Regional Development, Ministry of Home Affairs Hon. Mr. Heru Budi Hartono, Acting Governor of Jakarta, Co-President of UCLG ASPAC
	Inaugural Ceremony, banging of the traditional musical instruments
	Keynote speech
	H.E. Mr. Suharso Monoarfa, Minister of National Development Planning (Bappenas)
	Group photo
10:15 - 10:30	Coffee/Tea Break (Press conference)
10:30 - 10:45	Introductory session
	 Mr. Michal Mlynár, UN Assistant Secretary-General and Acting Executive Director of UN-Habitat (video remarks) H.E. Ms. Fatimetou Abdel Malick, President of UCLG Africa and President of Regional Council of Nouakchott, Mauritania and Co-chair, UN Secretary-General's Advisory Group for Local and Regional Governments (video remarks) Mr. Chun Kyoo Park, Head, UN Office for Sustainable Development, DESA
40.45 40.00	Introduction of distinguished representatives
10:45 – 12:00	Session 1: Status of implementing the SDGs locally: progress, gaps and challenges Moderator: Ms. Gita Sabharwal, UN Resident Coordinator, Indonesia
	 Ms. Celeste Connors, CEO, Hawaii Local2030 Hub; Co-chair, Local2030 Islands Network; Steering Committee, Local2030 Coalition Hon. Ms. Noraini Roslan, Mayor of Klang, Malaysia, Steering Committee, Local2030 Coalition Mr. Jairaj Phatak, Director General, All India Institute of Local Self- Government Mr. Biasarda Maraga, Bragramma Managar, UN Habitat
	Mr. Riccardo Maroso, Programme Manager, UN-Habitat
	Question & Answer (Q&A)

UCLG

United Cities and Local Governments ASPAC Asia-Pacific

	Guiding questions
	 As we approach 2030, what are some key stories of progress and major challenges that remain for advancing local results on the Sustainable Development Goals? This year nearly half of the world's population will go through electoral transitions. What role do local governments play in navigating these transitions while also ensuring progress on sustainable development? How can national governments better support local and regional authorities in their efforts to achieve the SDGs? What policy changes, institutional arrangements, financing mechanisms, or governance frameworks are needed?
12:00 - 13:30	Lunch
13:30 – 14:30	 Session 2: Breaking the Local Government Finance Gridlock - Investment pathways to achieve the SDGs at local and regional levels Moderator: Mr. David Jackson, Director, Local Development Finance, United Nations Capital Development Fund (UNCDF) Hon. Mr. Murtaza Wahab Siddiqui, Mayor of Karachi, Pakistan Hon. Ms. Refiloe Mamogobo, Mayor of Ezulwini, Eswatini Hon. Mr. Abdulrahman Omary Shiloow, Mayor of Tanga City, Tanzania Ms. Sujala Pant, Deputy Resident Representative, UNDP
	Guiding questions
	 How can local governments be direct recipients of international finance for SDG localization? What traditional and innovative financial instruments and mechanisms are available to local governments to enhance their capacity to fund SDG initiatives? Given the challenging context that many local governments face with finance, what strategies can local governments adopt to align their budgets with SDG targets and ensure efficient use of resources? How can national governments in accessing and utilizing diverse funding sources?
14:30 – 15:30	 Session 3: Leveraging the Six Key Transitions: Investment Pathways to Achieve the SDGs locally - Digital Government, Smart Cities and Inclusion Moderator: Ms. Bernadia Irawati Tjandradewi, Secretary-General of UCLG ASPAC Hon. Ms. Tavida Kamolvej, Deputy Governor, Bangkok Metropolitan Administration, Thailand Mr. Ngo Trung Hai, General Secretary, Association of Cities of Viet Nam Ms. Abiodun Essiet, Senior Special Assistant to the President of Nigeria Mr. Marco Kamiya, Representative for Indonesia, UNIDO Ms. Ana Thorlund, Public Governance Expert, UNPOG, DPIDG, DESA
	Q&A Guiding questions

UCLG

	 How can digital government initiatives and smart city technologies specifically accelerate the achievement of SDGs at the local level, and what measurable impacts have been observed so far? What are exemplary cases existing regarding how frontier technologies can strengthen basic services delivery in peri-urban and rural municipalities? What measures can be taken to ensure that digital government and smart city projects are inclusive and accessible to all citizens, particularly vulnerable and marginalized populations?
15:30 – 15:45	Coffee/Tea Break
15:45 - 17:00	 Session 4: Investment Pathways to Achieve the SDGs locally - Triple planetary crisis and the just energy transition Moderator: Ms. Sara Castro Hallgren, Sustainable Development Officer, UNOSD Ms. Ivonne Lobos Alva, Senior Expert, Stockholm Environment Institute Hon. Mr. Baraniko Baaro, Mayor of Teinainano Urban Council, Kiribati Hon. Mr. Gregório da Cunha Saldanha, Mayor of Dili, Timor Leste Mr. Abdi Ahmad, Commissioner, Oromia Planning and Development Commission, Ethiopia Dr. Sri Haryati, Undersecretary of Jakarta for Economy and Finance Q&A Guiding questions How can national policies and frameworks be designed to better support local efforts in addressing climate change, biodiversity loss, and pollution? What tools are available to ensure governments prioritize realize the most multiplier effects across the SDGs when making investments for tackling the triple planetary crisis and a just energy transition? How can local governments ensure that the energy transition is just and inclusive, providing benefits to all community members, particularly marginalized groups?
17:00 – 17:15	Wrap up – Rapporteur
19:00 - 21:00	Welcome Dinner hosted by the Governor of Jakarta – Grand Hyatt
	Day 2 – 3 July 2024
Time	Session
09:00 – 10:15	 Session 5: Country experiences implementing multi-level governance to achieve the SDGs Moderator: Ms. Mahesti Okitasari, Expert, UNU-IAS H.E. Sariha Belén Moya Angulo, Secretary of Planning, Secretariat of National Planning, Ecuador Mr. Ali Rasheed, Deputy Minister, Ministry of Housing, Land and Urban Development, Maldives
	 Hon. Mr. Adam Azim, Mayor of Male City Council, Maldives Hon. Mr. Ali Nizar, Mayor of Addu City Council, Maldives Mr. Pungkas Bahjuri Ali, Head of the National SDGs Secretariat at the Ministry of National Development Planning (Bappenas)
