

Building Regional Cooperation around SDG6 and SDG-PSS

Belize, Suriname, St. Lucia, St. Kitts & Nevis, Trinidad and Tobago,
Dominica and Guyana

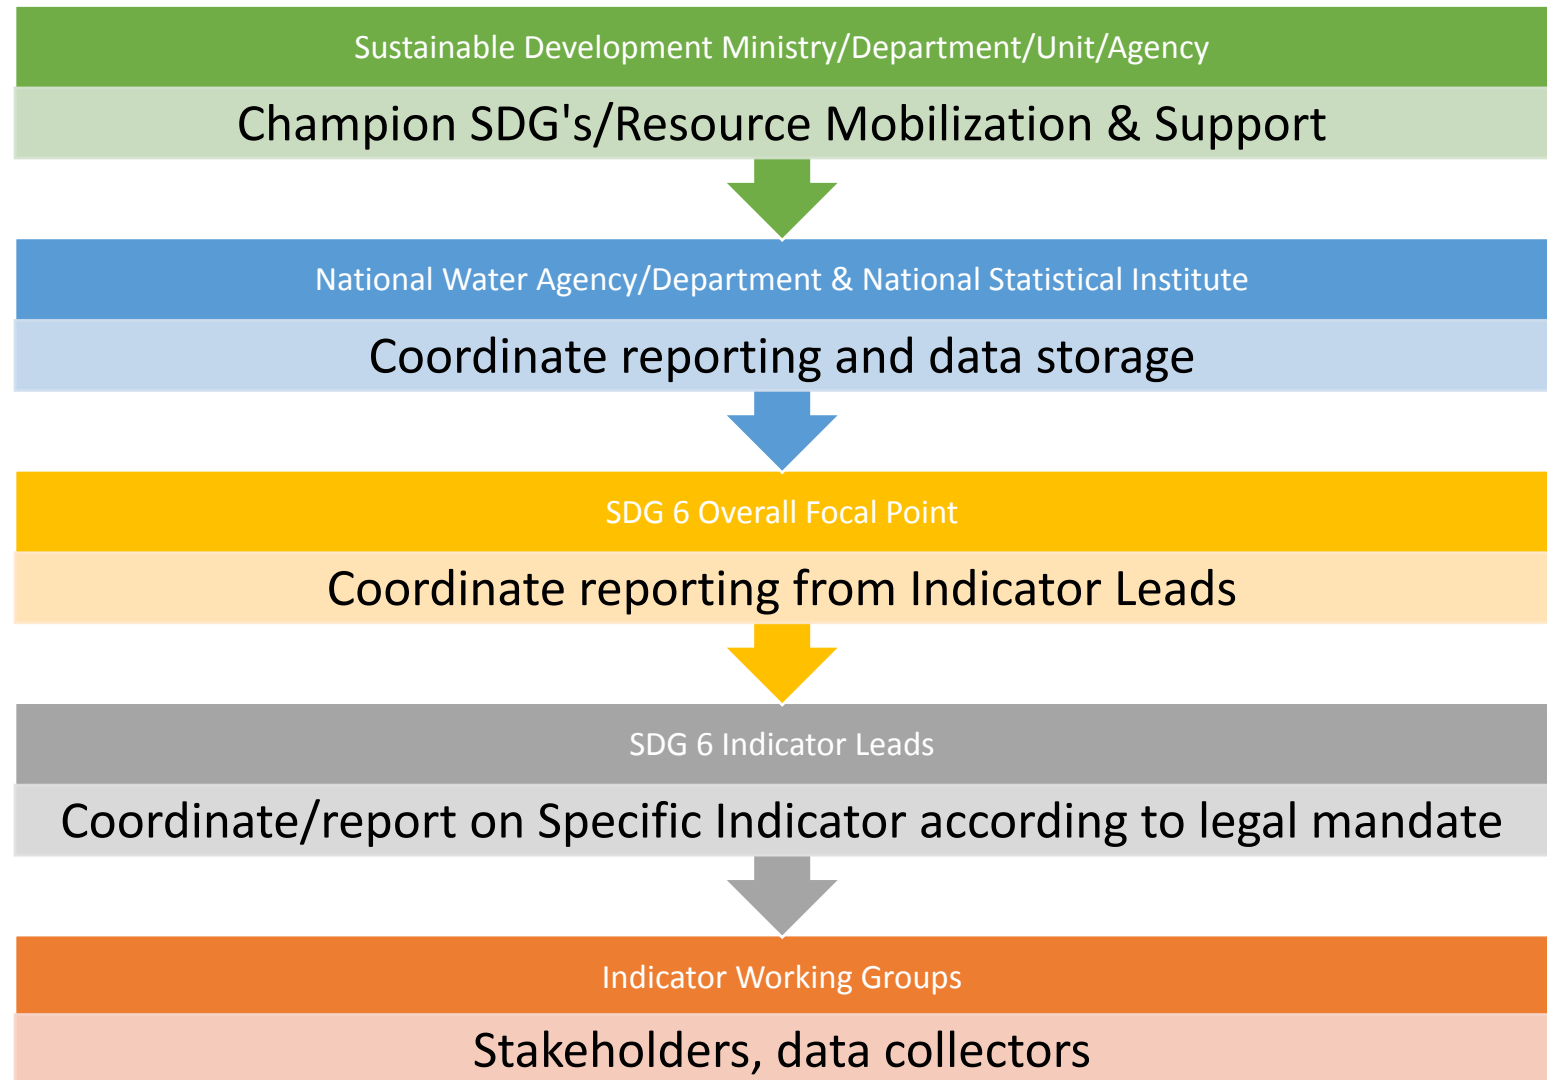

September 22, 2023

Regional Ongoing Cooperation Activities

- CREW+ Project - Wastewater Projects – (Suriname, Guyana*, St. Lucia, Trinidad and Tobago, Belize) *water and wastewater theme
- CARIBSAN (EU funded)– Constructed Wetlands Project (Dominica, St. Lucia, Martinique, Cuba and Guadeloupe)
- **GCF Readiness and Preparatory Projects – water management theme (Belize, St. Kitts, St. Lucia) ** Individual country projects
- EU-GCCA (OECS) - Integrated Landscape Management
- IWECO – Integrated Water and Land Ecosystems Management
(Bahamas, Trinidad & Tobago, St. Lucia, Antigua, Barbados, Dominican Republic, Cuba, Grenada, Jamaica & St. Kitts)
- IDB – CWUIC (Caribbean Water Utility Insurance)

Best practices in a country that can be replicated

- Brazil formula with some adjustments based on country specific circumstances
- Some form of this formula is being employed in some Caribbean countries already

Regional Cooperation on use of SDG-PSS

- Tool is easy to understand and use
- Support with collection of data and verification
- Understanding descriptors for the questions and answer choices
- Lessons Learnt to be shared among countries that are more advanced
- Since questions are similar across the 6 thematic areas, is it possible to use answers to validate responses given that some areas are linked
- Assist with Gap analysis and how to collect metadata for reporting
