

Design Thinking for SDGs

Session 1-3 Prototype and Testing

Thursday August 19, 2021

Prof Keeheon Lee
Prof Younah Kang

Today's agenda

- 1) DT Step 1: Empathize
 - Empathize with your P, issues in Sustainable Development
 - Activity: Empathize recap
- 2) DT Step 2: Define your problem
 - Activity: How Might We question and Problem Statement
- 3) DT Step 3: Ideate
 - Find a right solution
- 4) DT Step 4: Prototype
 - Visualize your idea

Today's agenda

- 10:00 - 10:40 Presentation on 'solution statement' from each team
- 10:40 - 10:55 DT Step 4: Prototype
- 10:55 - 11:55 Group working session
- 11:55 - 12:00 Wrap-up

Before we begin

Let's have a brief presentation from each team.

What is your solution statement?

(Starting with Group 1, two minutes each)

Session 1

Prototype

Prototyping

The way to get ideas out of your head and **bring to life**.

30%

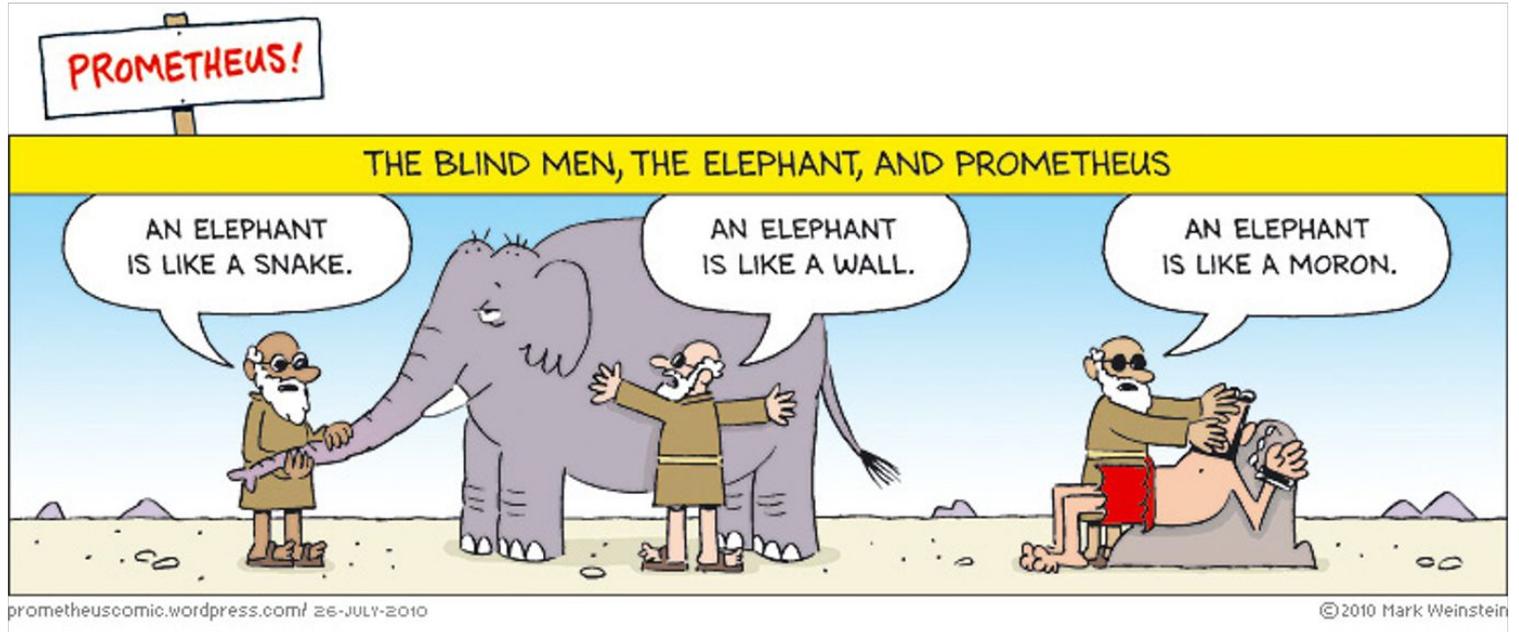

of our cortex is devoted to vision

65%

of people are visual learners

“Show, don't tell”

The Blind Men and The Elephant

Why is it important?

1. **You** can fully understand your idea.
2. **Team members** can communicate more effectively.
3. **Stakeholders** can see, hold, interact with a prototype more easily.
4. **Users** can test out and give feedback.

CO-CREATION

Things to remember:

- Make your hands **BUSY**
- **QUICK & DIRTY**
- Remember the **PROBLEM**
- Be **OPEN-MINDED**
- Remember the **USERS**

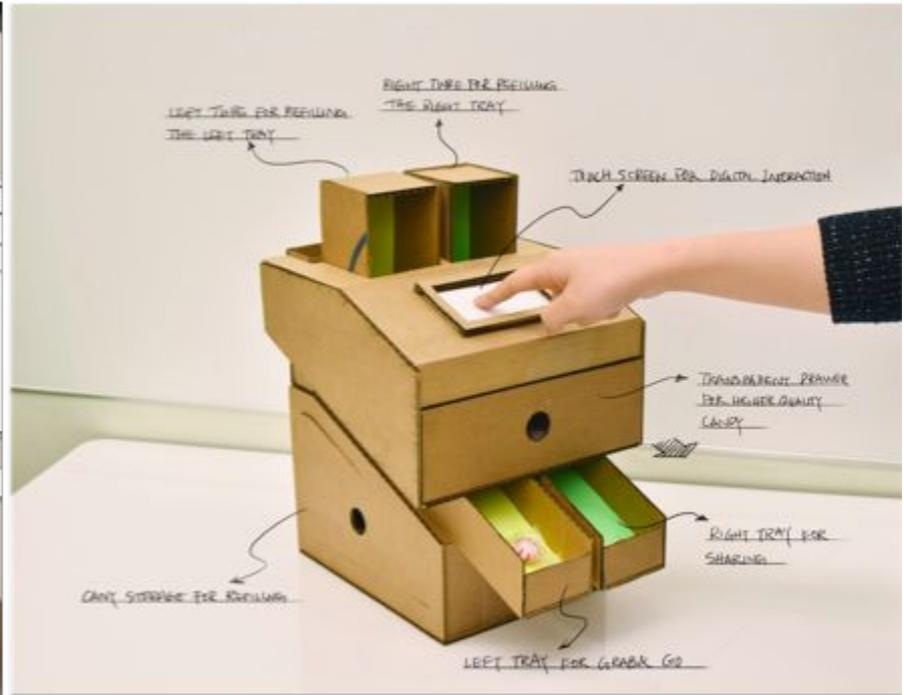

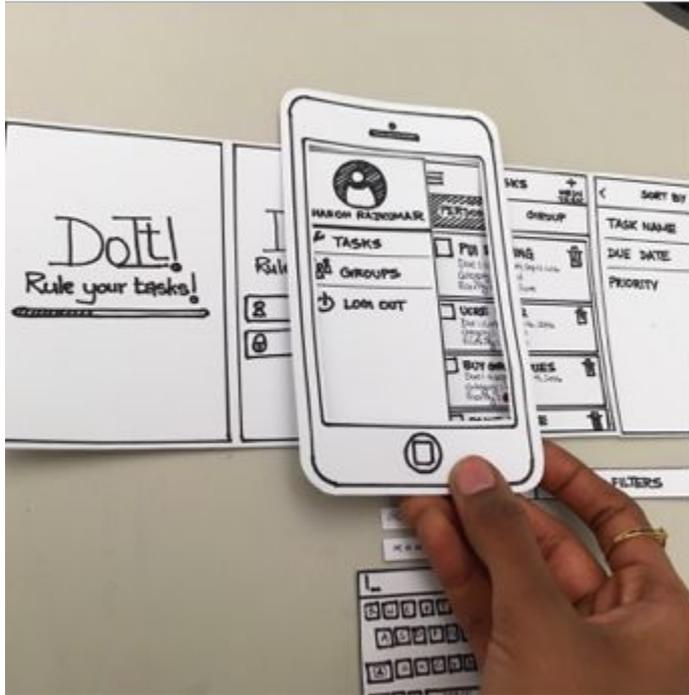

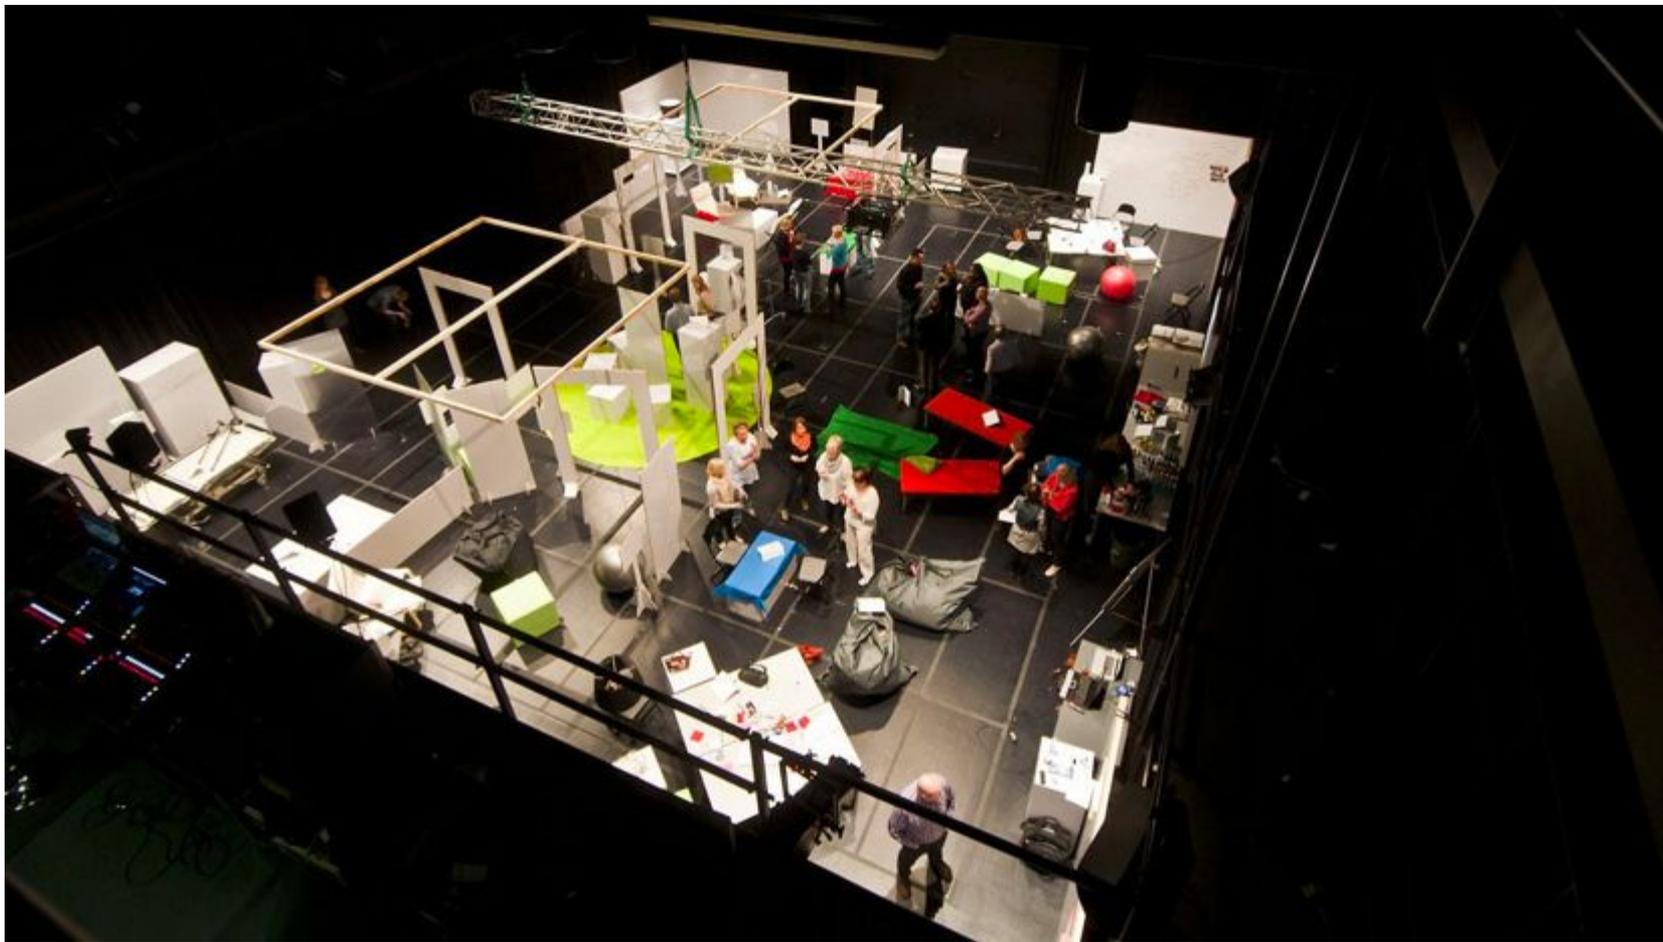

1. PHYSICAL(RAPID) PROTOTYPING (FROM LOW-FI TO HIGH-FI)

Physical prototyping

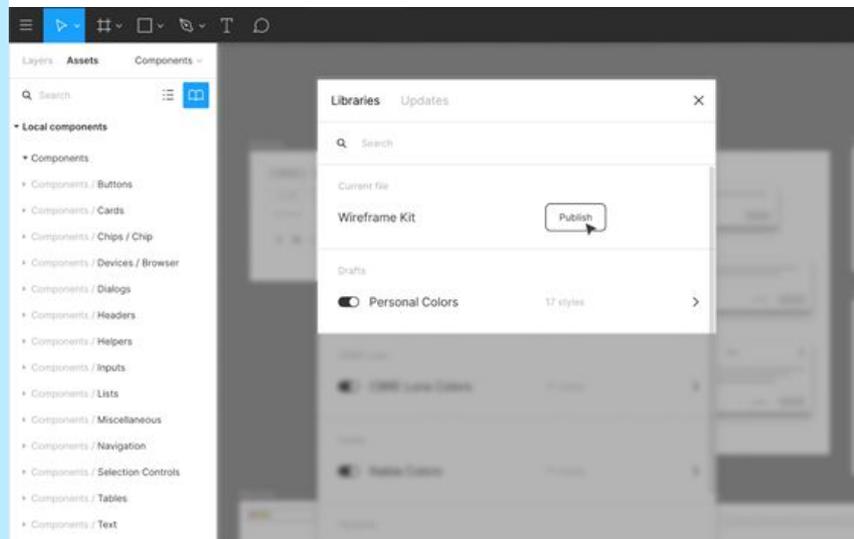

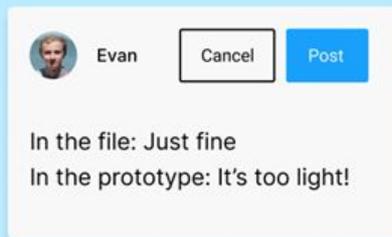

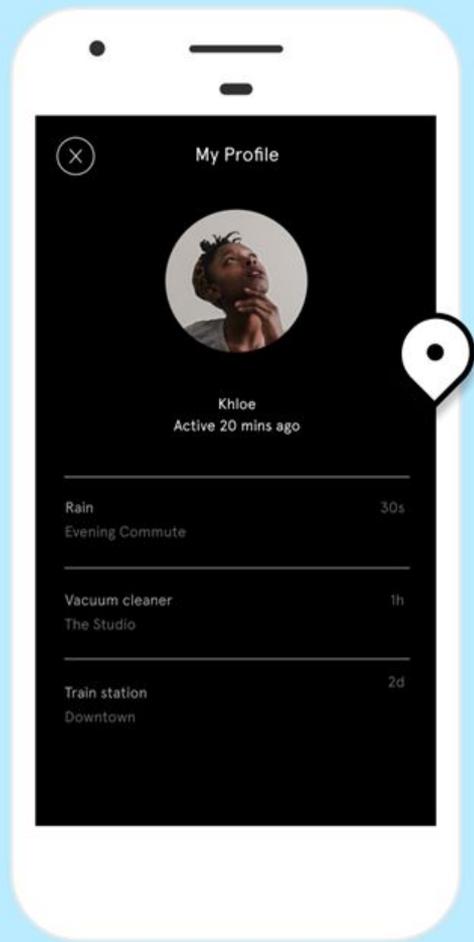

1. Paper Prototyping
2. Digital Prototyping
3. Native Prototyping

Interactions Assignment: Prototyping

Exploration 1: Share Song V1

Share icon next to like icon
Post button is placed at the bottom
Media is centered and large

Entry Mid1 Mid2 End

Exploration 2: Share Song V2

Share to community is placed within the 3 dots with the other options
Post is on the top right
Media is minimized and left aligned
User icons and usernames is shown

Entry1 Entry2 Mid1 Mid2 End

Exploration 3: View Community & Comment V1

Friends Section with user icon preview
Text in post is prioritized
Number of likes and comments is displayed
Like icon and Comment icon is displayed for replies
Profile of post within comments
Comment section with filter
Send icon

Entry Mid1 Mid2 Mid3 End1 End2

Exploration 4: View Community & Comment V2

Post and Friends have their own tabs
Media in post is prioritized
Friends that like a post are shown next to the number of likes
Like icon and reply icon are removed with text
The post isn't within comments
No filter
Post text button

2. LOGICAL PROTOTYPING

Logical prototyping

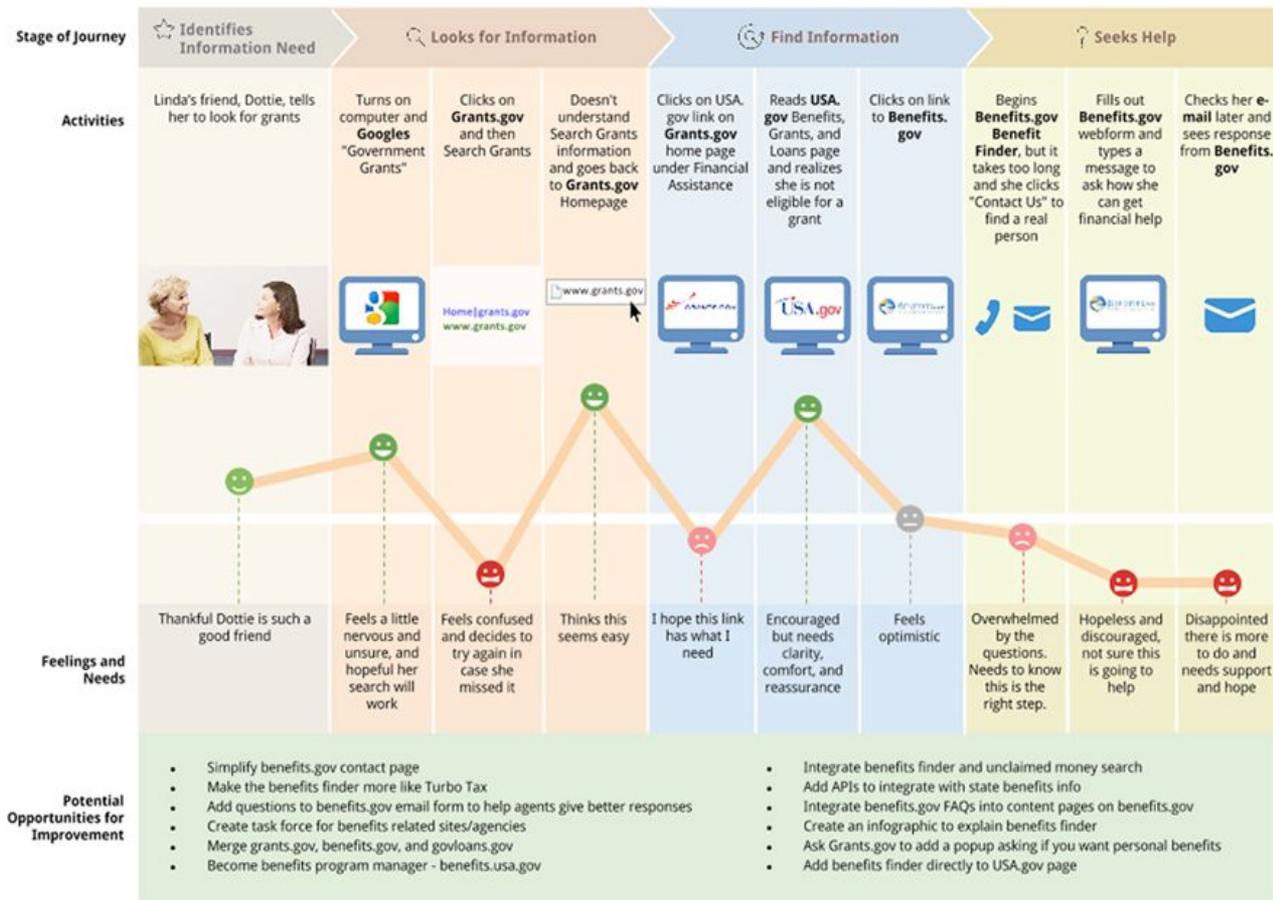

1. Journey Map
2. Role Play
3. Storyboarding

JOURNEYMAP

Linda's Journey Map

Browse information or learn more on a general topic

ROLEPLAY

Yonsei TAD Capstone Project 2018 DFK

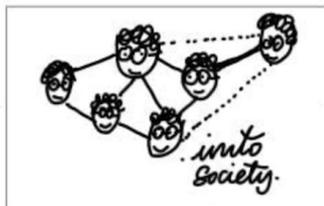

STORYBOARDING

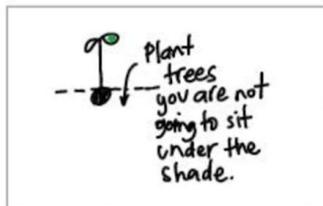

what is this young lady doing on this side of the storyboard?

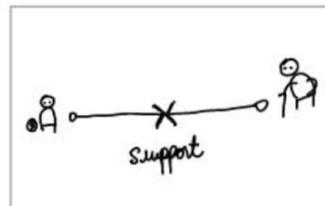

Storyboarding

Dysfunctional beliefs are not generative
Everyone contains more aliveness than one lifetime allows for

Pursue latent wonderfulness

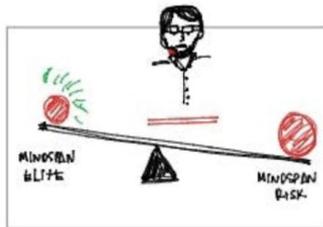

Talk to people: get the stories
Interested is interesting - curiosity works

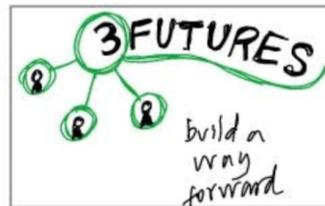

this might end up here somehow

It's never too late
There are lots of great yous

How many lives are you?
Get curious, talk to people, try stuff

Engineering thinking: solve your way forward

or maybe this will end up right here

but probably not, nope, most likely it won't be here

SYSTEMS

wealth = wellbeing

Exercise

Test

“Testing is an opportunity to learn about your solution and your user.”

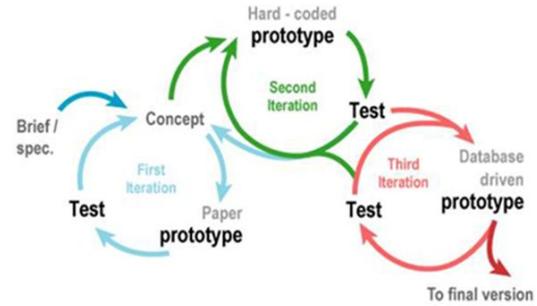

Do the homework!

- Show your prototype and get their feedback.
- Observe and take notes. Ask follow-up questions.
- Validate your concept.

Test

WHAT TO DO NEXT?

In the next session,
**each team will have a feedback
session with the faculty team**
