# 2030 Agenda in Chile: Uncovering the climate and SDGs synergies

# Table of Contents

1

Climate Change and COP25

2

2030 Agenda, Policy Coherence and Evaluation?

3

Wrap-up

**Global Temperature Rise**

**Warming Oceans**

**Shrinking Ice Sheets**

**Decreased Snow Cover**

**Glacial Retreat**

**Declining Arctic Sea Ice**

**Extreme Weather Events**

**Ocean Acidification**

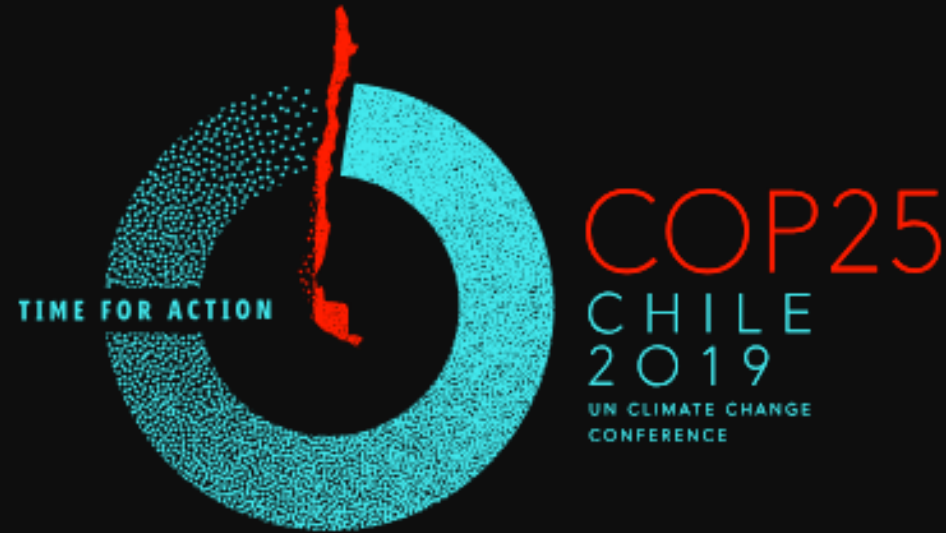

**Are we the last generation that will be able to  
act and change the course of history?**

# From Negotiation, to Implementation (Action)

**2040: Coal Phase Out (Electricity Generation)**

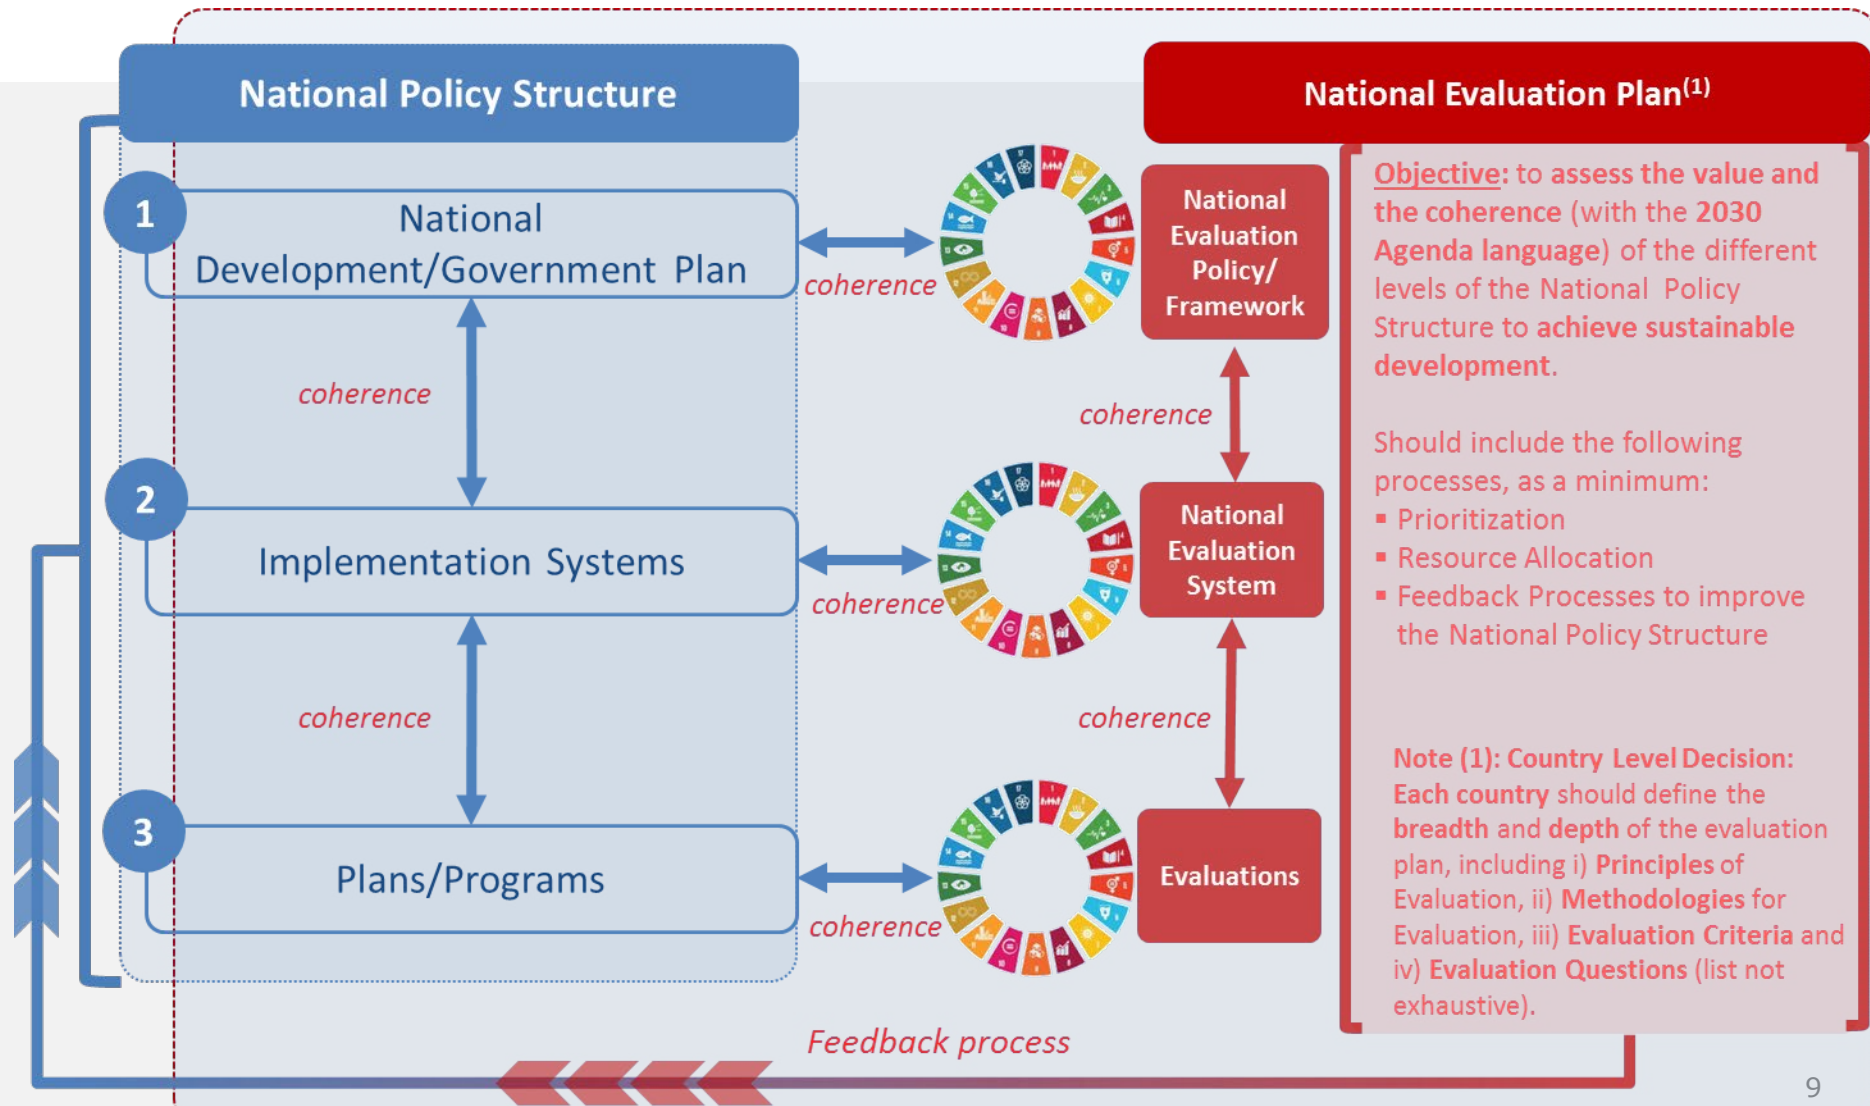

**2050: Carbon Neutral**

## 2. Agenda 2030, Policy Coherence and Evaluation?

**Strategic Definition**  
What to do?

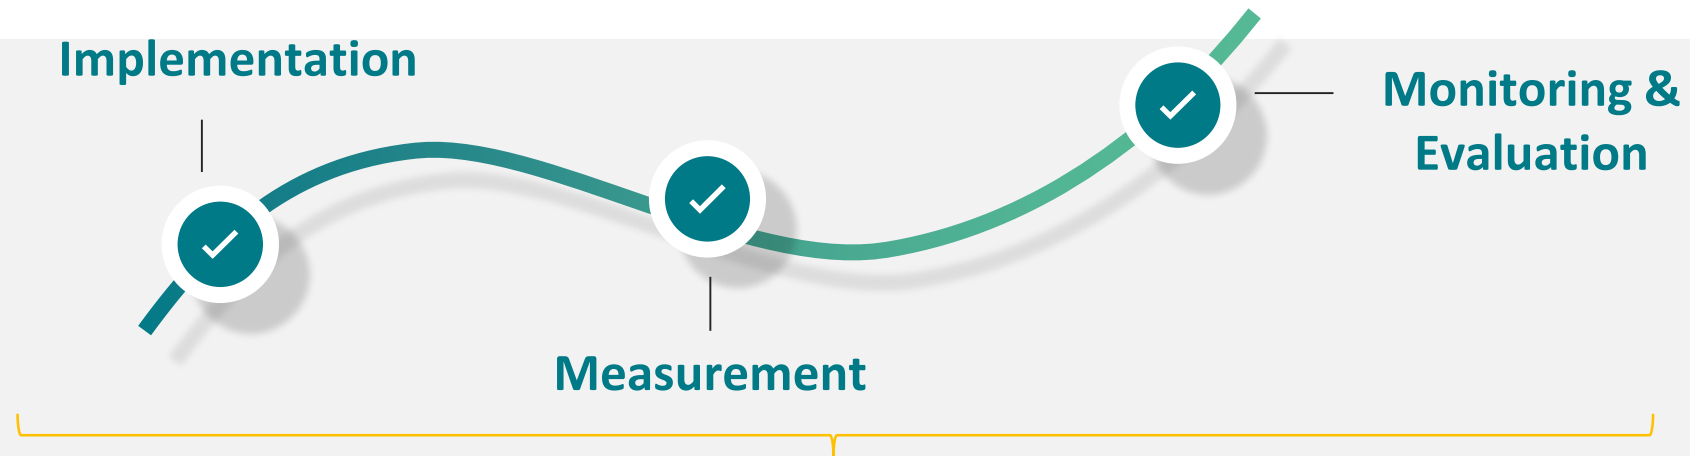

**Strategic Planning**  
How to do it?

**Source:**  
**Helsinki**  
**Retreat,**  
**March 2019**

### 3. Wrap up

---

## Proposal of a National Implementation Strategy for the 2030 Agenda

- ◆ Priorities Definition
- ◆ Measurement (indicators) according to national priorities
- ◆ Monitoring and Evaluation

But the question is:

**Given the pressing challenges from today, do we need a  
Policy Coherence/Analysis of Interlinkages,**

**Before – During definition – After the strategic targets agreement**

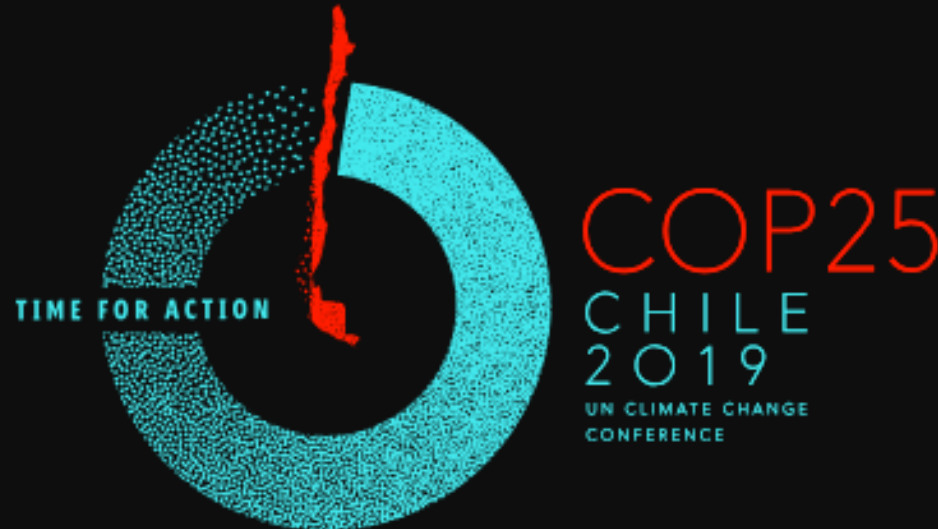

*Ex-Ante*

*Ex-Ante*

*Ex-Post*

e.g. 2050 Carbon Neutrality
