Using SDG 6 Policy Support System (SDG-PSS) in "Turkiye"

National agencies involved in SDG 6 achievement

- Turkish Statistical Institute (TurkStat)
- Ministry of Agriculture and Forestry (MoAF)
- Ministry of Environment, Urbanization and Climate Change
- Turkish Cooperation and Coordination Agency (TIKA)

Most important SDG 6 target(s) and indicator(s)

- 6.3.2 (water quality)
- 6.4.2 (water stress)
- 6.5.2 (transboundary water cooperation)
- 6.6.1 (water related ecosystems)

Reflections on SDG-PSS and its online course

- SDG-PSS should be useful for Turkiye especially the indicators that have not been produced yet.
- The SDG-PSS could easily analysed the bottlenecks especially for indicators 6.3.2, 6.4.2 and 6.6.1.
- The video of Components of SDG-PSS may be more explanatory.

Overall status of SDG 6 achievement at the national level

- TurkStat has published 3 Press Releases on Sustainable Development Goals (SDGs) indicators and reports the SDG indicators 6.1.1, 6.2.1, 6.3.1, 6.4.1 and 6.5.1 and 6.a.1 to the custodian agencies whenever requested.
- 6.1.1 (drinking water)   98.8% (2020)
- 6.2.1 (sanitation and hygiene)   89.3% (2020)
- 6.3.1 (wastewater treatment)   74.0% (2020)
- 6.4.1 (water use efficiency)   0,124 US $/m³ (2018)*
- 6.5.1 (water resources management) 72.0% (2019)
- 6.a.1 (international cooperation)   5.9 million US $ (2019)

*excluding agriculture, including mining & quarrying, manufacturing, electricity, gas, steam and air conditioning supply

Relevance of SDG-PSS Components

- Most relevant: Finance assessment and capacity assessment

- Not/least relevant: Integrity
